

FEDERAL COMMUNICATIONS COMMISSION  
DOCKET FILE 007-0745

Dec 1 9 13 AM '04 Federal Communications Commission

DA 04-3622

Before the  
Federal Communications Commission  
Washington, D.C. 20554

In the Matter of

Amendment of Section 73.606(b),  
Table of Allotments,  
Television Broadcast Stations; and  
Section 73.622(b), Table of Allotments  
Digital Broadcast Television Stations.  
(Tulsa, Oklahoma)

MB Docket No. 04-260  
RM-10616

**REPORT AND ORDER**  
**(Proceeding Terminated)**

Adopted: November 16, 2004

Released: November 30, 2004

By the Chief, Video Division:

1. At the request of Global Education Development, Inc., Broadcasting for the Challenged, Inc., Faith That Pleases God Church, Family Educational Broadcasting, Inc., Creative Educational Media Corporation, Oral Roberts University, and Community Television Educators, Inc., jointly referred to as the "Applicants", the Commission has before it the Notice of Proposed Rule Making, 19 FCC Rcd 13160 (2004), proposing the substitution of DTV channel \*26 for channel \*63 at Tulsa. The Applicants and Motorola, Inc. filed supporting comments.<sup>1</sup>

2. As stated in the *Notice*, the Applicants filed their petition for rule making pursuant to the provisions outlined in the Commission's Public Notice ("*Public Notice*") released on November 22, 1999, DA 99-2605. In that *Public Notice*, the Commission announced a window filing opportunity to allow persons with certain pending requests for new analog television stations to modify their requests to eliminate technical conflicts with digital television stations and to move from channels 60 through 69. The Applicants requested a DTV channel as the replacement for channel \*63 at Tulsa.

3. We believe the public interest would be served by allotting DTV channel \*26 since it will permit the Applicants to move from TV channels 60 through 69. DTV channel \*26 can be allotted to Tulsa, Oklahoma, consistent with the criteria set forth in the Commission's *Public Notice* regarding the allotment of a DTV channel in lieu of a NTSC channel allotment. The coordinates for DTV channel \*26 at Tulsa are 36-04-56 N. and 95-45-27 W. DTV channel \*26 can be allotted to Tulsa with the following specifications:

<sup>1</sup> Motorola, Inc. supports the Applicants proposal stating that the presence of channel \*63 precludes the public safety community from operating on channels 63 and 64 due to co-channel and adjacent channel interference. Motorola, Inc. also states that the channel substitution is in the public interest since it would eliminate any future conflicts with the public safety community accessing the spectrum to meet their needs.
